## Update:

Director reached end of sale (EOS) on 31-Oct-2015. While product support will continue through the end of life for the product for each customer (in some cases depending on the purchase date), no new functionality or bug fixes will be added to the product.

While new features will not be introduced, critical patches, such as security patches, will be evaluated and the product may be updated as necessary. However, such patches will be tested and supported only for SGOS versions through version 6.7, not including SGOS 6.6, and will not support new features introduced in 6.7. Also, such patches will not be available on new hardware introduced after EOS, or for new product models such as Advanced Secure Gateway.

Technical support will be performed in accordance with the terms and conditions published at [https://support.symantec.com/en\\_US/terms/support-fundamentals.html](https://support.symantec.com/en_US/terms/support-fundamentals.html), or successor URL, and Symantec's then-current technical support policies.
