

## End of Life

Customers are advised to move to the most current Maintenance Release (x.y.z) for the given Minor Release (x.y) of Management Center. For purposes of clarification, bug fixes and limited enhancements (if applicable) will be provided on the most current Maintenance Release only during the applicable notice period.

When a new Minor release (x.y) of Management Center becomes available, the previous Minor release (x.y-1) will begin countdown to End of Maintenance (EOM) and will be supported for 180 additional days.

This same policy applies when a new Major release becomes available. When a new Major release (x.0) of Management Center becomes available, the previous Minor release (x-1.y) will begin countdown to End of Maintenance (EOM) and will be supported for an additional 180 days.

After the described 180-day period, the product version will reach End of Maintenance (EOM) and bug fixes for that version will no longer be available.

Phone support will continue for 1 year from each version release date, but bug fixes and enhancements will only be available by moving to the most current Maintenance Release.
